

Fast Connector

1. Features

Applicable as stand-alone connector or attenuator
Pre-embedded fiber and ferrule polished in factory
Field installable, quick assembling, convenient for operation
Requiring NO epoxy, polishing, glue or electrical devices when assembling in field
Cost effective
Outstanding performance with high reliability
Simple and easy connection to fiber or cable
Cable Tensile complied with Telcordia GR-326-CORE

2. Applications

Optical Distribution Frame
Optical Network Equipments
FTTH, CATV, etc.

Fast Connector Structure

3. Specifications

Item	Parameters
Fiber Type	G652/G657/MM (50/62.5/OM3)
Tube Type	φ 0.9/φ 2.0/φ 3.0/ Indoor cable
Insertion Loss	≤0.3dB
Return Loss	≥45 dB
assemble success rate	>98%
Repetitive assembly number	5
Operating Temperature range	-40°C~+85°C
Storage Temperature range	-40°C~+85°C
